Re: Agreed Order - Case No. WPC11-0066  
Docket No. 04.30-116140A  
Item No. 2 - Corrective Action Plan/Engineering Report (CAP/ER) – Notice of First Action  
Sumner County, Tennessee

Ladies and Gentlemen:

In accordance with the provisions of the Agreed Order, referenced above, Item Number 2 – Corrective Action Plan/Engineering Report (CAP/ER), herewith we are transmitting written notification of first action on Corrective Action Plan/Engineering Report items.

1. **Woodvale Pump Station:** On May 4, 2012 a "Notice of Award" was given to Garrison Construction for the replacement of this pump station. This project consists of a new 625 gallons per minute pump station, 5,356 linear feet of 8-inch, 10-inch, and 12-inch gravity sanitary sewer, and 4,800 linear feet of 10-inch force main sewer. Once completed (currently scheduled for February 2013) this project will replace the under-capacity station, and the force main discharge will be re-routed from Basin "A" to Basin "C".

2. **2012 Sewer System Rehabilitation – Phase 1:** On August 7, 2012 a comprehensive sanitary sewer rehabilitation project was awarded to Skaggs Environmental Services. This project consists of pipe-bursting approximately 20,000 linear feet of 8" – 24" sanitary sewer main and replacing it with HDPE pipe, replacement or rehabilitation of manholes, and new sanitary sewer services. Construction on this project commenced on January 22, 2013.

A copy of this notification of first action on Corrective Action Plan/Engineering Report items is also being placed on our website in the Public Document Repository.

Please do not hesitate to contact me should you have any questions or require any additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Kellogg', with a long horizontal flourish extending to the right.

David T. Kellogg  
Assistant Superintendent  
Gallatin Public Utilities
